

I offer training in Gozo (Malta), Mexico, Sardinia and occasionally in France. Check my Calendar page and if I did not schedule to travel to any of these locations, I am also happy to travel and meet you there or at your location (provided you cover the cost of the journey and accommodation).

Please take your time and read through this page and don't hesitate to come back to me shall you have any question.

All courses will run even if you are the only person booked on.

BOOKINGS & ENQUIRIES

It is essential that we get in touch, so we can discuss your current diving skill level, your expectations, goals and the organisation of your training. We can do so by email or online video call.

I work on a daily rate, and courses such as 'TDI Cavern' or 'Side Mount Essentials' have a minimum set number of days. This is set to ensure that you receive the right amount of time to practice and develop the necessary dive skills needed for the foundations of your diving development. Having a "structured" course also allows you ample time to absorb and retain the information presented during that course. Any additional days to complete training will be charged at the daily rate.

Book now by emailing training@audreycudel.com I am happy to spend the necessary time to discuss your training goals by email or online video call free of charge.
