

TDI DECOMPRESSION PROCEDURES INSTRUCTOR

This course examines the theory, methods and procedures of planned stage decompression diving. This program is designed as a stand-alone course or it may be taught in conjunction with such TDI courses as TDI Advanced Nitrox Instructor, TDI Advanced Wreck Instructor, or TDI Extended Range Instructor. The objective of this course is to train instructors how to plan and conduct a standard decompression procedures course not to exceed a maximum depth of 45 metres / 150 feet. The most common equipment requirements, equipment set-ups, decompression techniques and decompression mixtures are covered.

Qualifications of Graduates

Upon successful completion of this course, graduates are qualified to enroll in:

1. TDI Extended Range Instructor course
2. TDI Advanced Wreck Instructor course
3. TDI Trimix Instructor course

Instructor Candidate Prerequisites

1. Minimum age 18
2. Minimum certification of TDI Advanced Nitrox Instructor or equivalent (unless Advanced Nitrox Instructor course is taught in conjunction with Deco Procedures Instructor)
3. Minimum certification of TDI Decompression Procedures diver or equivalent
4. Provide proof of 150 logged dives
5. Have certified 10 students in SDI Deep Diver or TDI Advanced Nitrox diver or equivalent or 10 SDI Advanced Adventure Diver or equivalent

Duration

- 6 days in total if TDI Advanced Nitrox Instructor is taught in conjunction with TDI Decompression Procedures
- 4 days otherwise
